TecTANGO

When Identity & Authentication Becomes Effortless

TecTANGO Overview

Tecnics+Okta offers a touch-less login solution that simplises clinical workflows and compliance for healthcare professionals. This solution eliminates the hassle of passwords and allows clinicians to access various applications seamlessly. TecTango prioritises the security of sensitive patient information by implementing multi-factor authentication and access controls, ensuring that only authorised personnel can access the data.

Key Benefits:

- Effortless Authentication
- Embedded Regulatory Compliance (GDPR, NHS Constitution,...)
- Identity driven application access
- Session carry-over
- Out of the box EPR connectors

Solution Features:

- Fast & secure single sign-on for any applications, Cloud or On-prem
- Enhance access with a single tap
- Self-service badge enrolment without IT assistance
- Centralised web-based management console for IT & help desk
- Sign-on policy configuration
- Configurable tap out behaviour
- Reset card enrolment
- Audit report of user activities
- Supports Shared Kiosk
- Privacy Shield - To protect patient data
